

CGEE 2023

ANKARA, TURKEY

AUGUST 26-28, 2023

CONFERENCE INTRODUCTION

The 2023 4th International Conference on Clean and Green Energy Engineering aims to bring together researchers, practitioners, and professionals from the industry, academia, and government to discuss the latest research and development, as well as professional practices in the field of clean and green energy engineering. The conference will be held in Ankara, Turkey from August 26-28, 2023, and will provide a forum for participants to share their original and high-quality contributions related to clean and green energy engineering, including theories, methodologies, and applications.

PAPER PUBLICATION

Submissions will be peer reviewed by the conference technical committees and international reviewers. Accepted and presented papers at the conference will be published in the proceedings of CGEE 2023 and included into **IEEE Xplore**, which will be sent to **El Compindex**, **Scopus** for indexing.

CALL FOR PAPER

Topics of interest for submission include, but are not limited to:

- 1. Clean and Renewable Energy Technologies**
Clean Energy Systems and Technologies
Solar Energy Engineering
Biomass Energy Engineering
Wind Energy Engineering
Geothermal Energy
Ocean Energy
- 2. Energy Storage and Saving Technologies**
Energy Materials
Storage Technology
Energy-saving Technology
Energy Chemical Engineering
Energy-efficient Lighting
Products and Technologies
Gasification
